Our Range

We are proud to offer the most innovative, versatile, and modular aluminium outdoor living solutions to both domestic homes and commercial properties. Capable of meeting any bespoke requests, we're sure that you will find the right solution to help create your dream outdoor living space.

Contained within this brochure are a range of robust products that come with a minimum 60-year life expectancy and 10-year manufacturer guarantee to offer you full peace of mind.

Manufactured in the UK, these systems are created using the new de facto standard material across the industry; aluminium. Not only does aluminium require little-to-no maintenance outside of regular cleaning, but users will be able to use their outdoor living space all year round free from the elements with a variety of design features and optional upgrades available upon request.

You can choose from a variety of design options including verandas,

canopies, or glass rooms that can be wall-mounted or free-standing.

Depending on the needs of your property or desired project outcome, you can also choose from open-plan, semi-enclosed, or glass room design that works within your specified budget with all options guaranteed to offer you a true return on your investment.

Thousands of homeowners have already benefited from adding more usable living space to their homes. The housing and commercial property market is also widely known to be on the rise with demand at an all-time high. Therefore, now is a suitable time to explore the various ways of creating additional value for your property.

Benefits include:

- Minimum **60-year life** expectancy
- **10-year** manufacturer guarantee
- **Bespoke** to suit your needs and dream outcome
- **Cost-effective** solutions for all budgets
- Durable and aesthetically pleasing **Textured Powder-coat finish**

Verandas & Canopies

Invite the great outdoors into your home by removing any fear of the elements intruding while having your patio or French doors open, or simply relax outdoors under a robust sheltered space with a variety of protection levels available to suit the needs of your property or location.

Our Aluminium Verandas are affordable, functional, and stylish with a range of glazing options available. Ideal for the rear elevation of any property, a veranda is the ideal living solution for those looking to extend their usable outdoor living space into the garden.

- **Easy to install**, and easy to enjoy – enquire today!
- **Designed** with both domestic home and commercial property owners in mind.
- Enjoy your patio & garden all year round with friends & family, perfect for outdoor dining, entertaining or relaxing & increase the **value of your home!**

Capable of spanning up to a massive 6 metres from post to post, you'll be able to enjoy a panoramic view that is uncompromised. Highly versatile and cost-effective, our verandas can be custom designed to integrate seamlessly to areas large or small.

We also have glazing options for the ceiling, side walls, and front elevations that can offer glass room or semi-enclosed design provides an aesthetically pleasing finish with uninterrupted views. See pages 19-32 for more on this.

With a range of upgrades and accessories available, including LED

lighting, glazing options, heating, drainage solutions, and more, your new veranda system can be easily tailored to meet your desired requirements.

Manufactured in the UK through our trusted supplier who have over 25 years of experience within the glazing and home improvements industry, we ensure the highest quality outdoor living verandas to both domestic home and commercial property owners.

Through unique and clever design combined with a high-quality powder-coat finish, you can be sure that your veranda or canopy will seamlessly integrate into any traditional or modern property and last for decades.

If you're looking to create a new sheltered space for the front or side elevation or looking for a veranda solution to suit a lower budget, why not consider one of our canopies finished in polycarbonate roofing?

Using the aluminium frame as our verandas, you'll still benefit from many of the excellent benefits our verandas offer, including all optional upgrades. Polycarbonate roofing simply caters for those on a stricter budget or looking for a lightweight alternative, without any significant compromise to the durability of the product.

The benefits of using a polycarbonate roofing option include:

- **Cost-effective** alternative to glass
- **UV Protection** elements
- Durable yet lightweight to support **hassle-free installation**
- **Longevity** - designed to last, withstanding the test of time and the unpredictable weather across the UK & Ireland

The polycarbonate roofing is available in clear, opal, and bronze as standard with the option to upgrade to 16mm grey heat-guard option. These can also help protect against discolouration allowing for an aesthetically pleasing finish long-term.

Vista 6 Veranda

Vista 6 is our most popular system. It offers a stylish veranda or canopy solution that is glazed with 6mm toughened glass.

Our most popular system, the Vista 6 offers a deluxe veranda or canopy at an affordable price due to its elegant posts and glass roofing options. By featuring the options of clear glass roofing, The Vista 6 offers improved acoustic properties - reducing the noise of rain drops during a downpour; these glass panels also provide a sparkling finish which is easy to maintain, particularly if the self-cleaning glass option is chosen.

The Vista 6 Glass Veranda is the perfect solution for domestic gardens and commercial properties, proving an effective and stylish cover from the weather for alfresco dining and garden parties.

With a span of up to 3.5m glass length from its supporting wall and unlimited length achievable, you will have a solution that can be adapted to suit your exact needs.

The Vista 6 comes with a full 10-year guarantee and a 60-year life expectancy, making this a cost-effective and reliable investment that you will be able to enjoy for many decades to come.

All framework is constructed from durable aluminium, with the option to powder coat the structure to RAL 7016 Anthracite Grey Textured, RAL 9016 White Semi Gloss, or RAL 9005 Jet Black Textured Finish.

Testimonial

"My neighbour likes the quality of the system so much that he's considering ordering one himself in the New Year."

DOMESTIC CUSTOMER

"Very pleased with the veranda, an excellent product and looks great!"

DOMESTIC CUSTOMER

Features & Benefits

- **UV Activated Self-Cleaning Glass** – Optional 6mm self-cleaning toughened glass has a UV activated special coating that is applied during manufacture that breaks down organic dirt which is then washed away by the rain. Only a small amount of UV is needed to activate the special coating so that the veranda remains clean even on cloudy days
- **Toughened Glass** – Both glass options are toughened during manufacturing and achieve Class 1 BS EN 12600 for impact performance
- **Low Maintenance** – All roof options are low maintenance, particularly the self-cleaning glass, which means less cleaning is required, saving you time and money
- **High Light Transmittance** – All roof options offer high light transmittance
- **Available Projections** – Up to 3.5m projection (Bar length)
- **Simple Fixing System with Minimal Parts** For a simple and speedy installation
- **Low Profile** – The Simplicity 6 can be fitted in height restricted areas
- **Integral Aluminium Guttering** – Creates a sleek, modern design which is stronger than external guttering systems and saves time on installation

Vista 16 Veranda

Unbeatable structural performance system that is quick and easy to install. Ideal for cost-effective Garden Verandas & Canopies.

It's simple, the Vista 16 has been developed with speed of installation, durability and affordability in mind.

Due to its clever design, The Vista 6 provides a durable and attractive shade and shelter solution at our most cost-effective price. It can project up to 4 metres and has a lightweight roofing system, making it perfect for use as a veranda or canopy.

The stylish modern design gives a look that is second to none, enhancing your building's aesthetics. It also offers

unbeatable structural performance, simply outperforming all other veranda and canopy systems pound for pound.

The Vista 6 comes with a full 10-year guarantee and a 60-year life expectancy, offering a futureproof investment at our most cost-effective price.

The framework is completely manufactured from aluminium and can be powder coated in RAL 7016 Anthracite Grey Textured, RAL 9016 White Semi Gloss or RAL 9005 Jet Black Textured finish.

Testimonial

"Our veranda was carefully delivered and well packaged. It is now up in our finished garden, and we are delighted with it! It's great for shelter from the rain, as well as shade in summer. It gives our son a safe relaxing space to use his wheelchair in, and allows us to spend quality family time together. We would highly recommend!"

DOMESTIC CUSTOMER

Features & Benefits

- **Available in any length**
- **Available Projections** – Available up to 4m projection depending on snow load
- **Simple fixing system with minimal parts** - For quick and easy installation
- **Low profile** – The Simplicity 16 can be fitted in areas where height is restricted
- **Stainless Steel Fixings** – All fixings are 316 marine grade stainless steel

Vista 35 Veranda

The Vista 35 is durable, versatile, and benefits from unlimited length making this the ideal solution for commercial properties and those domestic homeowners looking to cover a significant space.

It is completely constructed from aluminium, giving you a structure with unbeatable durability together with a life expectancy of up to 60 years. This robust system is also supplied with a full 10 year guarantee.

The Vista 35 can be manufactured to any length to meet specific requirements and can span up to 6 metres, enabling you to cover a larger space using a minimal number of posts.

It has a modern, stylish appearance and benefits from robust integral aluminium guttering which creates an attractive finish to the structure while also ensuring a quick installation.

Furthermore, this aluminium guttering requires minimal subsequent maintenance throughout the products lifetime.

The Vista 35 system features 35mm structured polycarbonate roof panels, which are available in clear, opal, bronze, or Heatshield Grey and offers in excess of 98% UV protection.

The Vista 35 has a variable wall pitch so you can decide on the height of the wall-plate to suit your needs. The aluminium framework is supplied in Anthracite Grey Textured (RAL 7016) and White Semi-Gloss (RAL 9016) as standard.

Testimonial

"I researched the quality of several other suppliers, and none matched the quality of their product. From order to installation the process was faultless, It was reassuring to know that if help was needed, a phone call quickly sorted it. Highly recommended."

DOMESTIC CUSTOMER

Features & Benefits

- **Fully Aluminium System** – Including heavy duty structural aluminium roof bars for ultimate strength
- **Stainless Steel Fixings** – All of the fixings are stainless steel for longevity and total resistance to corrosion
- **Integral Aluminium Guttering** – Saves time on installation and creates a robust and attractive gutter system
- **35mm Structured Polycarbonate Panels** - Our 7 wall polycarbonate is amongst the strongest you can buy.
- **Fire Performance** - Polycarbonate panels benefit from excellent fire performance, meeting BS476 part 7 class 1, EN13501 and B-s1, d0
- **Robust Roof System** – The roofing system is strong enough to be walked on as a means of escape and maintenance, with the use of boards (edge protection recommended)
- **High UV Protection** – A layer of UV absorber is co-extruded on the outer surface of the roof panels which prevents damaging UV radiation from penetrating the sheet and protects those underneath from the sun. UV protection also prevents yellowing and loss of strength to the panel, giving it longer life
- **Variable Roof Pitch** – The roof has a variable pitch of between 2.5° – 45°
- **Large Projection** – Projection of up to 6 metres to create large shaded areas if required
- **Unlimited Length** – This structure can be constructed to any length to suit requirements.

Vista Xtra Veranda

Enhance your outdoor living experience with a Vista Xtra Veranda, whether you enjoy entertaining, dining, or simply relaxing in your garden. The versatility of a Vista Xtra Veranda will provide that lifestyle.

The Vista Xtra is a stunning veranda which gives you the ultimate outdoor living solution for those areas with 4m projection.

In order to support this incredible structure, the post dimensions are 70mm x 100mm giving this system a solid contemporary look, allowing it to cover large surface areas with minimal posts.

The Vista Xtra is supplied with a full 10-year guarantee and a 60-year life expectancy for the veranda or canopy frame.

The framework is completely manufactured from aluminium and

can be powder coated in a Textured RAL 7016 Anthracite Grey or RAL 9005 Jet Black finish. It also features 6mm toughened glass that is available in a range of tinted options.

Testimonial

"Thank you very much for all your help we are very pleased with the way this has been handled and the price, we will be sure to highly recommend your company. We are exceptionally pleased with the whole thing. We've never had anything like this done before but the system has fitted it in wonderfully. Once again thank you to you and your team."

Vista Free Veranda

An innovative and versatile system that delivers stunning contemporary aesthetics. Ideal for use as wall-mounted or free-standing veranda or garden room.

The Vista Free system has been created with contemporary design, flawless functionality, and ease of installation in mind. Named for its free-standing option, the Vista Free delivers maximum versatility to homeowners.

This truly modern structure features a quick-fit, top-fix/snap-down glazing solution to speed up the installation of the 6mm toughened glass.

With a maximum projection of 4 metres and any desired length achievable, the Vista Free is perfect for any patio.

Constructed from aluminium and designed with the rigours of the UK weather in mind, the Vista Free has a sturdy 8-millimetre galvanised steel profile corner connector plate to guarantee firm installation. Engineered to last, the Vista Free has an expected lifespan of 60 years and comes with a 10-year guarantee.

Testimonial

"We have recently had our Glass Room installed and early signs show great potential. We're excited to use our new sheltered space particularly when we have the family round in the summer!"

DOMESTIC CUSTOMER

Features & Benefits

- **Wall Mounted or Free Standing**
- **Clean Contemporary Cubic Design** – We have carefully designed the Sim Free to deliver an absolutely stunning visual impact
- **Quick-Fit, top-fix/snap-down glazing system** – The glass panels are quickly and easily fixed into place with a quick-fit system
- **Sturdy 8mm galvanised steel profile connector plate** – Internal corner connections are made with strong steel plate for firm installation
- **Integrated gutters and downpipes** – Water management is effortlessly achieved with the Sim Free, with rainwater evacuated via hidden, internal drainage
- **Roof bars with optional integrated Somfy-controlled LED lights** – Lighting is available, with LED spotlights in the roof bars
- **6mm toughened glass** – Available in clear or coloured options, the roof glass panels are highly strong and provide shade and shelter
- **4 metre maximum projection, 4 metre maximum between posts, any length achievable** – Highly versatile installation options, able to provide a large footprint for the largest patios
- **3m Maximum post height** – The Sim Free can provide a very high clearance, ideal for large properties or commercial and public spaces
- **Chunky 30 centimetre Ring Beam around perimeter** – Very strong, visually sleek and modern with hidden fixings and gutter, the Sim Free Ring Beam is a contemporary and practical solution

Vista Victorian Upgrades

The Victorian Upgrade transforms the Vista range into ornate and beautiful shade and shelter structures which enhance the exterior of any building.

The Victorian Package has been our most popular upgrade, with the design features allowing for a true complimentary feel to both modern and traditional homes, and even commercial properties alike.

- **Decorative, Victorian style post upgrade which includes Post Sleeves and Gallows Brackets**
- **Ideal for domestic use to blend in with traditional style dwellings**
- **Provides a covered area that is in keeping with traditional or historical building styles**
- **Can be coloured to any standard colour to match the canopy and surrounding area**
- **Manufactured from robust aluminium**

Amongst the optional upgrades we provide are the Victorian Gallows Brackets and Base Castings which are colour matched in our powder coat finish to allow for seamless integration.

Testimonial

"We looked at several veranda systems, but wanted something to complement our old house, the Victorian upgrade for top gallows brackets really do add a touch of class to the standard Simplicity system and turn a plain design into one with character, which nicely blends in with the character of the house."

DOMESTIC CUSTOMER

Heating

Infrared Outdoor Heaters

The infrared wall mounted heaters have ceramic elements that are designed to gently warm users whilst outdoors under a covered structure such as a canopy using Far Infrared technology which is completely harmless and contains no ultraviolet radiation or fumes.

The heaters also do not emit any noise and provide a gentle heat similar to the feeling of the winter sun.

You can enjoy keeping warm outside without feeling too hot and without experiencing any unsightly glare.

The ceramic plates generate heat quickly and reach their full operating temperature within less than 10 minutes.

Each unit is supplied with a 5-year warranty and requires no maintenance. They are CE certified and carry the UL safety recognition (file no. E214574) when installed by an approved electrician.

Size:

Available with 2 or 3 heated elements to create medium or large heated areas with a choice of different power outputs.

Keep your veranda or glass room warm throughout the year with our heating products

Modular Heaters & LED Lights

Our unique modular heaters and LED Lights offer individual combinations for every project.

Not only do they complement all our veranda, canopy or glass room systems, but they are easy to install and fully waterproof. Combine single modules or standard sets to every desired colour and length – 10, 20, 30, 50 or 100mm.

Choose from our standard colours pure Traffic White (9010), Jet Black (9005) and anthracite Grey (7016) or with a supplementary charge for an individual colour of your choice. Mounting brackets are included whether single modules or standard modular sets.

The units simply click together

LED Integrated Lighting

RGBW Lighting

Brighten up your veranda, canopy or glass room with the Integrated RGBW LED Lighting System.

This product must be installed by a qualified electrician.

- Integrated into the system seamlessly, our lighting system merges into the aesthetic when not in use.
- All wires are hidden within the canopy frame for a neat, tidy appearance.
- Enables users to use their canopy in the early morning or late evenings, when it may otherwise be too dark.
- The lights are fitted to the underside of the roof to light up the area underneath the structure.
- Operated by remote control for convenience.

4 Channel Remote Control

Battery operated, this gives you the facility to select which lighting colour is your preference from the Red, Green, Blue and White options. It also has a thumb wheel which allows you to sequence through the various colours. Using this remote also allows you to increase and dim the lighting to suit your choice.

SMART Receiver

Upgrade to the smart receiver which gives you the facility to operate your lighting from a Remote Control, your mobile phone or even Alexa!

RGBW Lighting Strip

The LED strip is Red, Green, Blue and White and every colour in between. The Power Consumption is 18W per metre. So, whatever the total length of your RGBW strips then multiply by 18 and you have the total wattage required to adequately power your system.

**Don't be left
in the DARK!
Our New RGBW
Lighting is HERE!**

Example colours

4 Channel Wireless Wall Switch Control

For ultimate control, upgrade to the 4 Channel Wireless Wall Switch enabling you to operate all the lighting features, changing colours and light brightness all from a touch pad on your wall.

Standard Receiver

With the standard receiver you can operate your remote control.

LED Driver 100W/150W/200W

Having worked out the total wattage (as above) you can now select the appropriate driver or drivers to power your system. This controls the voltage going to your lights so always ensure your driver(s) output is greater than the total wattage required.

LED Driver Specification – select from the drivers below, can be more than one, so that the total output of your drivers is greater than the wattage required.

- 100w Driver
- 150W Driver
- 200W Driver

Gewiss Electrical Box

- 190x140x70mm Plastic
- Rated at IP44/IP56 meaning it's both dust and water resistant
- Available in various styles, including pre-glanded entry (IP44), low lid and high lid (IP56)
- Screw down lid
- Constructed from technopolymer plastic to RAL7035
- Halogen free

LED Spotlights

Enhance Veranda Lighting with our Integrated Spotlights Upgrade

Bring endless light to your veranda, canopy, or glass room installations with the use of our Spotlight Upgrade when you order one of our Simplicity Xtra or Sim Free models. Providing a contemporary look, these will be a great addition to any outdoor living space project.

- Our Spotlight systems are integrated into the veranda, enhancing the aesthetic while in use and almost unnoticeable when turned off
- All wires are hidden within the veranda frame for a seamless appearance
- The lights are Integrated into the bolster bar to give it a sleek finish
- Operated by remote control for convenience
- Enable customers to use their veranda in the early morning or late evenings, when it would usually be too dark

Testimonial

"We opted to incorporate the Spotlighting into our new Vista Xtra system to create additional lighting in the darker months. We liked the design and how the spotlights were built into the framework and hidden from view. We're extremely happy with our choice and would recommend to future buyers."

DOMESTIC CUSTOMER
